

ESSENTIAL

“在公共桑拿浴室有特別 放置鞋子的地方”

“The communal sauna has a special room for shoes”. Not only do we know that this happens to be important to the rising group of investors from Hangzhou, China; fluent in Mandarin, we know how to communicate the point to them, too. Of course, this also means that we can advise developers in making the decisions that will ultimately matter the most. Say, for example, when you're in the process of creating 92-storey group dynamics, such as at the new Aurora Melbourne Central in Melbourne CBD. Or when you're building the iconic Burj Khalifa, like we did in Dubai. Or when you're called upon to master-plan a whole city, like we were in what is now the sprawling metropolis of Sheik Zayed Sports City Abu Dhabi.

For development planning, sales and owners' corporation management services that see everyone's needs, get in touch with our team today.
